Money Matters

► Deferred Compensation

The King County Deferred Compensation Plan (a 457 plan) is a voluntary supplemental retirement savings program that offers a convenient way to build your savings for the future while enjoying current tax breaks. The plan allows you to defer a portion of your county pay to a variety of investment options before taxes are deducted. This reduces your taxable pay, providing an immediate tax advantage.

You may withdraw your money (in a lump sum, installment payments or an annuity payment) at retirement or when you leave employment with King County. Withdrawn funds are taxed, but ideally after you've retired and your income and tax liability are less!

You can enroll any time as a benefit-eligible employee. Please note that it may take up to 60 days after enrollment to process the first payroll deduction. For more information:
